## ABOUT US

### WHO WE ARE

KM Fasteners, a family business established in 1983, manufactures and warehouses industrial fasteners in India. This third generation has now expanded to North America and Canada.

In 2014, KM Fasteners set up a distribution center for import warehousing in Salt Lake City, Utah and Calgary, Canada. Foreign imports come from certified manufacturers in India, China, Taiwan, Viet Nam, Singapore, Thailand and other Asian markets. We are planning to expand in supplying domestic products made in the USA, in the near future.

### WHAT WE DO

KM Fasteners stocks high quality standard bolts / screws, nuts, washers, threaded rods and studs and other types of fasteners. All of our vendors are ISO 90001 certified manufacturers and our products meet or exceed national & international standards such as IS, ISO, ASTM, DIN, SAE, etc. We provide mild steel fasteners, hi-tensile fasteners, alloy fasteners, stainless steel fasteners and special graded steel fasteners.

We specialize in procuring non-standard items made to print. On request we will also provide samples.

We take pride in servicing our customers and providing best quality products.

### QUALITY CONTROL

KM Fasteners is committed to providing the highest quality products. To maintain our utmost quality, we have relationships with third party inspection agencies overseas, and in North America. We personally test our products before dispatch and after receiving shipments.

### SUPPLY NETWORK

We ship stock anywhere in North America. From pallet quantity to container load, we'll take care of it. We also provide prepaid services, direct mill shipments from our overseas factory and provide stock-and-release services.

Our team is committed to providing quality customer service and customer satisfaction with quality products and competitive pricing.

High Tensile & Stainless Steel Fasteners as per National & International Standards & Customer Drawings.
